[github.com/zhou0244](https://github.com/zhou0244)

## PROFILE

UX Designer with a foundation in front-end development and over five years of graphic design experience. Skilled at bridging design and technology to create intuitive, user-centered interfaces. Experienced in UI/UX design, prototyping, and front-end coding using HTML, CSS, JavaScript, and React. Currently completing a diploma in Mobile Application Design & Development at Algonquin College bringing hands-on project experience in web, mobile, and cross-platform applications.

## SUMMARY OF QUALIFICATIONS

**UX/UI Design:** Wireframing, prototyping, interaction design, accessibility, user research, usability testing, user interface design

**Tools:** Figma, Webflow, Sketch, Adobe Creative Suite

**Front-End:** HTML5, CSS3, JavaScript, React, NextJS, TypeScript, Tailwind

## RELEVANT EXPERIENCE

### Design Lead & iOS Developer (Client Project)

2025-2025

#### *MetaPi iOS App*

- Collaborated with a 7-person team using Figma and GitHub, contributing from user research through to development.
- Conducted user, market, and product research, and created primary and secondary personas to guide design decisions.
- Designed wireframes and prototypes for early concept validation and usability testing.
- Produced high-fidelity prototypes and presentation materials to communicate the final solution to the client.

### UX/UI Designer & Front-End Developer (School Projects)

2024-2025

- *FitFlex*: Designed an iOS app with a clean, user-friendly interface to help users track exercises and diet in their daily life.
- *Preppo*: Designed a mobile app that connects learners with the right tutors for language test preparation, focusing on a simple and smooth user experience.
- *Cinemaddict*: Designed a movie discovery app with a clean, intuitive interface that makes browsing and finding films easy.

### Graphic Designer

2023-2023

Vibe Inc., Hangzhou, China

- Reduced homepage bounce rate by enhancing UI/UX design
- Designed landing pages for new product launches in collaboration with front-end developers

### Graphic Designer

2020-2022

United Imaging Healthcare, Shanghai, China

- Supported the redesign of the official website, ensuring consistency with brand guidelines.
- Collaborated with an external development agency to ensure the live site matched the design specifications.

### Graphic Designer

2018-2020

Less Ordinary, Shanghai, China

- Redesigned the official website for New Energy Nexus, supporting their business expansion in Southeast Asia.
- Designed the website for Acorn Entertainment, helping launch their services in the Chinese market.
